

using a digital imaging device, wherein the information receiving step (c) further includes the step of:

- (c1) receiving a tag stored in at least one image file for a first portion of the plurality of images, the tag for altering at least one default of the plurality of defaults for the first portion of the plurality of images;
- (d) altering the at least one default if the user has provided the information;
- (e) providing the portion of the plurality of pages using the plurality of defaults; and
- (f) allowing the user access to the at least the portion of the album.

Sub 176. (Amended) The method of claim 5 wherein a second portion of the plurality of images include sound and wherein the step of providing the portion of the plurality of pages further includes the steps of:

- (e1) printing the portion of the plurality of pages; and
- (e2) providing a mechanism for a user to hear the sound for the second portion of the plurality of images.

7. (Amended) A method for providing a user with an album including a plurality of pages, the album being a printed photo album, the method comprising the steps of:

- (a) allowing a user to purchase at least a portion of the album, the portion of the album including a portion of the plurality of pages;
- (b) allowing the user to set a plurality of defaults for the plurality of pages, at least one default of the plurality of defaults capable of being altered using information provided by the user;
- (c) receiving from the user the information, if any, and a plurality of images captured

using a digital imaging device, wherein a portion of the plurality of images include sound;

(d) altering the at least one default if the user has provided the information;

(e) providing the portion of the plurality of pages using the plurality of defaults, the portion of the plurality of pages providing step (e) further including the steps of

(e1) printing the portion of the plurality of pages; and

(e2) providing a mechanism for a user to hear the sound for the portion of the plurality of images wherein the mechanism includes a printed stripe playable by a scanning device and wherein the providing step (e1) further includes the step of:

(e1i) providing the scanning device to the user; and

(f) allowing the user access to the at least the portion of the album by providing the portion of the plurality of pages to the user.

20. (Amended) A system for providing a user with an album including a plurality of pages, the system comprising:

at least one storage subsystem for storing an identity of a user who has purchased at least a portion of the album and a plurality of defaults for the plurality of pages, a portion of the plurality of defaults capable of being set by the user, at least one default of the plurality of defaults capable of being altered using information provided by the user; and

a server for receiving a plurality of images captured by a digital camera and provided by the user, the server also for receiving information provided by the user, if any, altering the at least one default if the user has provided the information, the server for providing the portion of the plurality of pages using the plurality of defaults;

wherein the information includes a tag stored in at least one image file for a first portion of the plurality of images, the tag for altering the at least one default for the first portion of the

93 plurality of images.

500-17 25. (Amended) The system of claim 24 wherein a second portion of the plurality of images include sound and the system further provides a mechanism for a user to hear the sound for the portion of the plurality of images.

26. (Amended) A system for providing a user with an album including a plurality of pages, the album being a printed album, the system comprising:

94 at least one storage subsystem for storing an identity of a user who has purchased at least a portion of the album and a plurality of defaults for the plurality of pages, a portion of the plurality of defaults capable of being set by the user, at least one default of the plurality of plurality of defaults capable of being altered using information provided by the user;

a server for receiving a plurality of images captured by a digital camera and provided by the user, the server also for receiving information provided by the user, if any, altering the at least one default if the user has provided the information, the server for providing the portion of the plurality of pages using the plurality of defaults;

a printing means for printing the portion of the plurality of pages;

wherein the a portion of the plurality of images include sound and the system further provides a mechanism for a user to hear the sound for the portion of the plurality of images; and

wherein the printing means further prints a stripe playable by a scanning device and wherein the scanning device is provided to the user.
